

RESOURCES FOR ONLINE GROUP MEETINGS

In the coming weeks, we want to encourage and equip our small groups to continue meeting online. Now is an important time for gathering to pray and encourage each other and explore God's Word. We will do our best to help your group transition to meeting online.

Getting started guides and resources are listed below. There may be other platforms that you may be more familiar with or have access to, so stay with whatever you're most comfortable using.

If you need further assistance, please contact Michelle at mschwab@doorcreekchurch.org.

ZOOM - An online video meeting platform. Participants can join online using web browser, smartphone or tablets.

- [Video tutorials for Zoom](#)

If you are hosting a Zoom meeting longer than 40 minutes, you will need to use the paid \$15/month version, or schedule two or more sequential meetings. If you need financial assistance for Zoom, please send your receipt to Michelle at mschwab@doorcreekchurch.org for reimbursement.

GOOGLE HANGOUTS - A video meeting platform. A google (or gmail) account is required for the meeting organizer.

- [Video overview of Google Hangouts](#)

FACEBOOK MESSENGER - If your group uses Facebook Messenger, you can create a group within the app to easily video chat with your group.

FACETIME

- For those who use Apple products (iPhones, iPads, Macs), Facetime is a built-in feature. An Apple product is required for all participants.
